Subject: EPA TSCA Import/Uses of Asbestos

Good Morning Mr. Courtnage,

I wanted to touch base with you regarding the importation and uses of asbestos at Axiall. Your information and questions were passed on from Brigitte Bartko from our Product Stewardship Group.

We do import and use asbestos on our site for the production of diaphragms in our chlor-alkali facility here in Plaquemine. We would be happy to answer your questions, by we are currently in a Health and Safety Audit that will wrap up today. Hillary Garner, HSE Manager, and/or myself will be available early next week, if we can set up a phone conversation.

Please let me know when would be a good time.

Thank you,

Blaine
